

IDAHO SOIL & WATER
CONSERVATION COMMISSION

North Fork Payette River 319 Grant Implementation (Valley CD)

Program	Water Quality Implementation
Lead Implementer	Idaho Soil and Water Conservation Commission
Funders	Idaho Department of Environmental Quality, Unknown, Valley Conservation District
Project Primary Contact	Bill Lillibridge (bill.lillibridge@swc.idaho.gov)
Project Stage	Implementation
Duration	2018 - 2021

Natural Resource Projects & Practices ➤ Water Quality Implementation

This project continued implementation efforts by the Valley SWCD to improve water quality in Lake Cascade and its tributaries, and the North Fork Payette River and its tributaries. The ISWCC's role was to assist with 319 project applications that require engineering and technical assistance to take a water quality problem and create a viable solution through engineering design, implementation, and grant administration.

All projects target the reduction of sediment and phosphorus in the North Fork Payette River watershed.

FY 2020: Invoicing, Reporting and New Grant Applications

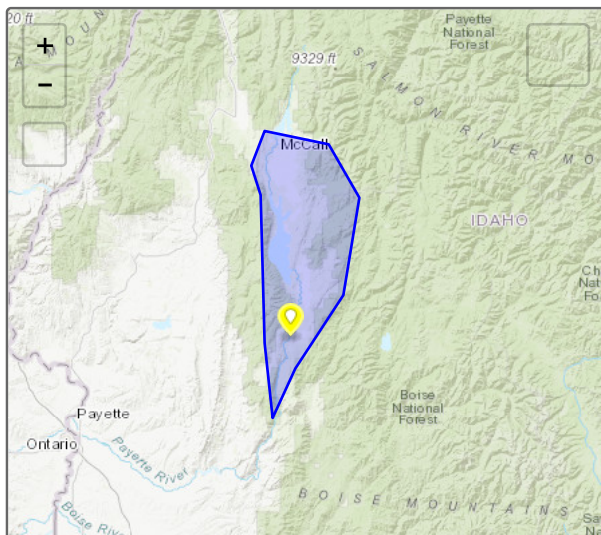

Key Accomplishments

- Engineering Designs Produced: 5
- Landowner Site Visits: 20
- Permits Prepared & Submitted: 4
- Persons Educated: 74
- Engineering & Technical Assistance Hours Requested: 1216
- Engineering & Technical Assistance Hours Allocated: 1158
- Engineering & Technical Assistance Hours Provided: 1256
- Engineering & Technical Assistance Value: \$84,179.40

Project Themes

- Water

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
